What have previous students said about their transition from Year 6 to Year 7?

My favourite subject so far is German because the teacher is really kind and it's really fun.

The teachers and my friends helped me in my first week.

My favourite thing about Helsby High is how big the outside space is.

The 5 minutes between lessons help me get from one lesson to another without worrying or rushing.

What does my first week in Year 7 look like?
