Understanding Target Grades

HELSBY

High School

What is Target Grade?

- An aspirational but realistic level of attainment each student should be aiming to achieve
- Intended to provide students, parents and teachers with a means of measuring progress over time

How are Target Grades set for GCSE?

- In KS4, like other schools in England we use the DfE Attainment 8 Tables to gauge the progress that students should be making based on their Prior Attainment
- We look at how students nationally achieve at KS4 compared to their KS2 starting points and use this information to set Target Grades for our students

What prior attainment are these based upon?

- For Y9 students, their prior attainment is based on their CAT scores as they did not sit the national KS2 SATs in Year 6 due to the pandemic.
- This is the same prior attainment used by many schools to benchmark students' targets and progress against.

How are Target Grades used by students?

- Target grades are used as a basis for discussing each student's progress with them.
- Discussions with Form Tutor, Subject Teacher and parents/carers
- Used in a motivational, aspirational way
- **Ambitious but realistic**
