How to Revise

What is it?
 Cue cards can help promote information quickly. The small, portable format lends itself to study sessions anywhere at any time. Commit to reading through your cue cards regularly.

Ways to help your child

- Encourage your child to follow their revision timetable.
- Encourage your child to use the available revision resources.
- Remind them that the better they prepare and the more confident they feel in their subject knowledge the less stressed they will feel when the exams start.
- Make sure your child has a quiet space to work, with no distractions.
- Be around as much as possible. You don't have to be at their side 24/7 but children like parents taking an interest in their revision (but not taking over).
- Check in with them, how are they feeling?

Ways to help your child

- Keep the kitchen cupboard stocked with delicious food. When the going gets tough children really appreciate a favourite drink, a plate of biscuits or their favourite meal.
- Encourage them to break revision into manageable chunks and to take regular breaks in between revision sessions. It's far more effective to do 30 minutes of successful revision – rather than plough on for hours on end and not get anywhere.
- Encourage them to get out for some exercise and fresh air, and to eat healthy food and get lots of sleep.
- Most important of all, help your child to keep everything in perspective.
