

Employer Engagement

Helsby High School is keen to develop links with local and national employers in order to provide the best opportunities for the young adults that we teach.

How we can help you

Helsby High School is a large comprehensive 11-18 school that has an academically strong and diverse population of young people. Working with our staff and students can help your organisation to:

- Provide development and leadership opportunities for your employees
- Best represent your industry's needs with your future talent pool
- Meet your CSR objectives
- Access high performing students
- Advertise job opportunities
- Raise your local profile

How you can help us

All subjects become enriched when students experience work related learning and employer engagement opportunities. You could support a student, teacher, subject or year group in the following ways:

- Talking to small groups of students at our breakfast careers workshops
- Sponsoring a subject prize
- Offering an off-timetable activity or trip to your workplace
- Providing a work experience placement or project for our students
- Supporting a subject area with specialist knowledge or case study material
- Giving general funding
